

I. To install the add-in, DATA ANALYSIS, onto Excel (to activate the Add Ins that are within your Excel)

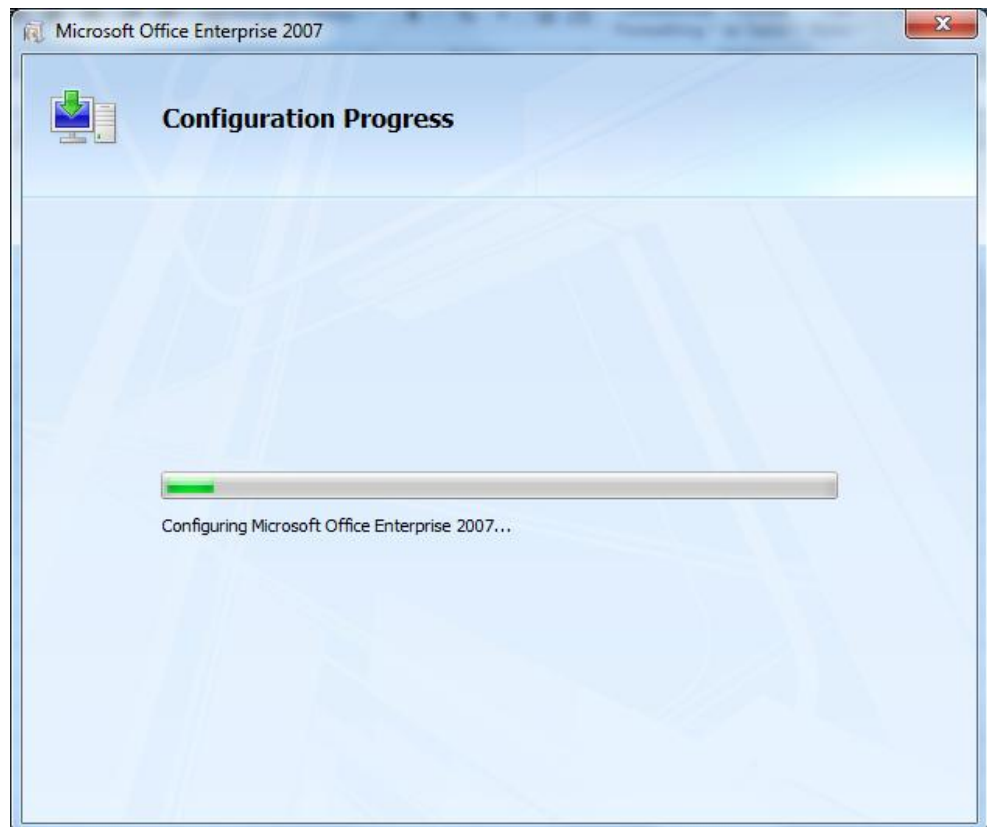

- a. Open Excel 2007 or 2010
- b. In Excel 2007: Right click on the windows icon in the upper left corner; Left click on “Excel Options”
- c. In Excel 2010: Click on FILE and then next, click on Excel Options
- d. Left click on “Add ins”

- e.
- f. Left click on “Go”
- g. Turn on the check boxes below

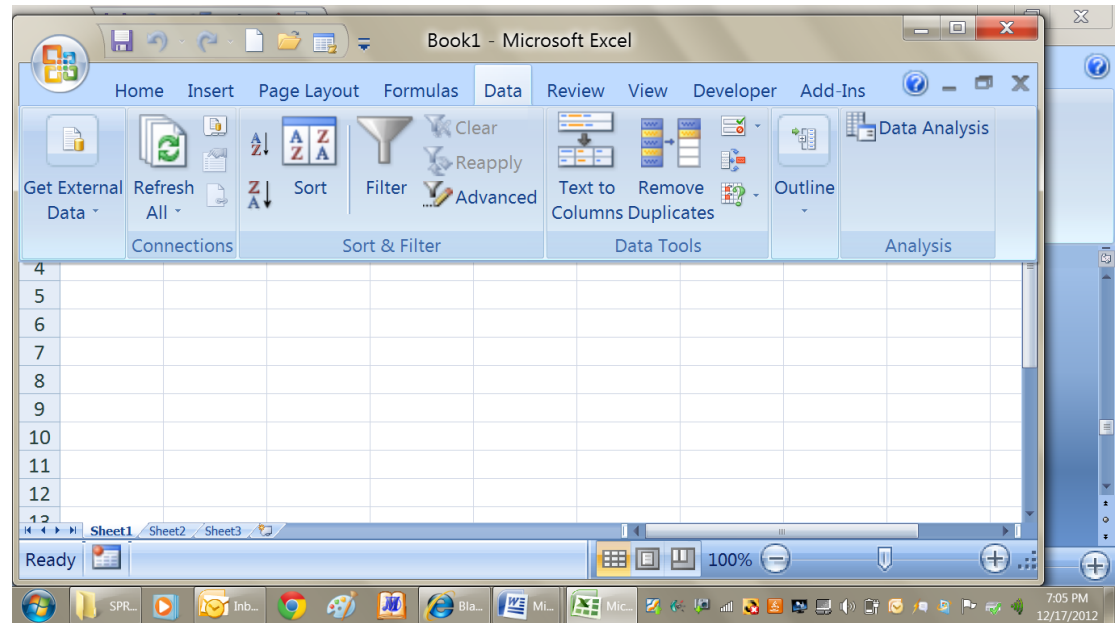

- i.
- ii. Select "ok"
- iii. If prompted – select "yes" to install the add ins

- iv.
- v. Once the install completes, close Excel

vi. Re Open Excel

vii. You should see DATA ANALYSIS to the far right of your Excel screen after clicking on the DATA TAB

For MAC users, consult your course syllabus. You will need the Parallel Desktop program (to run windows on your Mac) because Macs do not read the scripts in our Data Analysis macros.
